

Start

Gather double sided tape

Fold the A4 paper in half vertically along the longer axis

Unfold

Fold the top corners of both sides into the center line

Fold each of the triangular flaps from the last step towards the center line

Fold the paper vertically towards you

Lay the paper on a flat surface and fold down the edge so it is sticking out by 1cm below the bottom crease on both left and right to create wings

Add double sided tape to the inside of the body of the plane that is connecting the wings in the previous step

End
